CENTRE FOR MOLECULAR BIOSCIENCES AND MEDICAL GENOMICS (CMBMG) LAUNCHES MAIDEN EDITION OF CMBMG PUBLICATION SERIES

...as DVC, Academics describes the launching as continuation of the Centre's pioneering spirit and unwavering dedication to advancing the frontiers of molecular medicine and genomics

The Centre for Molecular Biosciences and Medical Genomics, University of Medical Sciences, (UNIMED), Ondo City, Ondo State launched the maiden edition of its publication series. This was done at a webinar aptly themed "The Molecular Intersects in Medicine and Public Health: An Exploration Series" held on Thursday, July 18, 2024

The Centre's aim is to bring excellence that inspires the next generation of scientists and medical professionals through collaborative research and training. See the DVC's speech and the full report of the event **on pg. 2.**

FROM THE EDITOR

In any institution where research is targeted at development, not just research for research sake, there is bound to be recognition of the outcomes of such research locally, nationally and internationally. UNIMED's researchers keep demonstrating that they are globally relevant with the way they attract grants for their groundbreaking researches.

In this edition, we showcased our grant/award winning researcher, Dr. Modupe Adesiyun, the launching of the Centre for Molecular Biosciences and Medical Genomics (CMBMG) Publication Series, among others.

You will also get to read about recent promotions/confirmation of appointment as well as the 2024/25 leaderships for various academic and other related units. Like we always say, you cannot read the UNIMED Weekly and be in the dark about the goings-on in the university. Happy reading!

ISAAC OLUJI
Head, Public Relations Unit

Welcome Address by the DVC, Academics, Professor Roseangela Nwuba at the Launching of CMBMG Publication Series on Wednesday, 24th July, 2024

The Vice-Chancellor, Distinguished Guests, and Esteemed Colleagues,

It is with great pleasure and immense pride that I extend a warm welcome to every one of you to the grand inauguration of the maiden edition of 'The Molecular Intersects in Medicine and Public Health,' hosted by the Centre for Molecular Bioscience and Medical Genomics at the University of Medical Sciences.

This event marks a significant milestone in our collective pursuit of advancing knowledge and innovation in the field of molecular medicine and public health.

The Centre for Molecular Bioscience and Medical Genomics at the University of Medical Sciences, Ondo, stands as a beacon of excellence and a testament to the university's pursuit of the transformative power of interdisciplinary research and collaboration.

Established in 2021, the Centre was founded with a vision to bridge the gap between basic science research and clinical applications, with a specific focus on leveraging the principles of molecular biology and genomics to unravel the mysteries of human health and disease. Over the years, the Centre has emerged as an NCDC- COVID-19 Accredited Testing Site and a hub of cutting-edge research, innovation, and education, attracting top-tier researchers, scholars, and students who are driven by a shared commitment to pushing the boundaries of scientific knowledge and translating discoveries into tangible benefits for society. Through its state-of-the-art laboratories, collaborative research initiatives, and vibrant academic programs, the Centre has been empowered to make significant contributions to the fields of molecular biology, genomics, and personalized medicine.

Launch of 'The Molecular Intersects in Medicine and Public Health: The Exploration Series' hosted by the CMBMG, UNIMED on July 24, 2024.

The event started with a welcome address by the DVC Academic, Prof. Roseangela I. Nwuba, followed by the introduction of the Centre for Molecular Biosciences and Medical Genomics (CMBMG) by Dr. Aniefiok E. Udoakang. Reminding the audience of the vision and mission of the Centre, Dr. Udoakang highlighted its goals, which include:

1. Creating a Centre of Excellence that inspires the next generation of scientists and medical professionals through collaborative research and training.
2. Conducting research focused on advancing healthcare through studies that enhance understanding, diagnosis, treatment, and prevention of both infectious and non-communicable diseases.
3. Supporting and fostering excellent research endeavours that bring about innovative discoveries and practical interventions, targeting Ondo and Nigeria.

An overview of the maiden edition of the numbered serial and proceedings, "The Molecular Intersects in Medicine and Public Health: The Exploration Series," was given by Director of CMBMG and Editor in Chief of the Serial, Prof. Olukemi Amodu.

She highlighted the purpose of the serial and described how it fit into fulfilling the mandate of CMBMG by promoting interdisciplinary collaborations through publications. In her words, "We invite you to take this journey with us. We hope that this adventure culminates into research ideas, discourses, collaborative research and dissemination in publications that will impact our society with the essential techniques and skills of molecular biology and its application in medicine and public health"

Prof Amodu introduced the Editorial Board Members, and outlined the different categories of articles that can be submitted for publication in the series. These include Research/Policy Briefs, Views and Commentaries, Reviews, Hypotheses, and Methods. She also indicated that the series will be published quarterly and provided a brief summary of the content of the maiden edition.

This launching event represents a continuation of the Centre's pioneering spirit and unwavering dedication to advancing the frontiers of molecular medicine and genomics for the betterment of human health and well-being.

I extend my heartfelt gratitude to all the distinguished speakers and contributors who have graciously shared their expertise and insights to enrich the discourse of this inaugural edition. Your collective wisdom and scholarly contributions serve as the bedrock upon which our shared aspirations for progress and transformation are built.

To the Director, Prof Kemi Amodu, and the organizing committee, who have worked tirelessly behind the scenes to bring this event to fruition, I offer my deepest appreciation for your unwavering dedication and commitment to excellence. Your hard work and vision have been instrumental in shaping this gathering into a beacon of knowledge and innovation that will illuminate the path forward for all of us.

In closing, I invite each of you to engage and participate wholeheartedly in future publications that will open up the free exchange of ideas, and forge new connections and collaborations. It is envisaged that this will propel us toward a future where the transformative power of molecular medicine and genomics is harnessed for the betterment of humanity.

Once again, I welcome you all to this momentous occasion and wish you a stimulating and rewarding experience as we join the exploration series proceedings of 'The Molecular Intersects in Medicine and Public Health.'

Thank you.

Honouring the invitation, Dr. O. T. Oyeyemi gave a brief presentation as an editorial board member and an author in the maiden edition of the serial on his article titled **"Identification and Control of Pest Outbreak in Afin Akoko, Ondo State: A Multidisciplinary Approach and Molecular Insights."**

CONT. ON PAGE 3

Our amiable Vice Chancellor, Prof. Adesegun Fatusi, gave a short speech about the Centre. He congratulated the team for a job well done and encouraged the University staff to embrace this innovation and work together to make the University great. The VC added that this maiden edition should be printed and distributed widely with the support of the University. He then formally launched the maiden edition of the serial, "The Molecular Intersects in Medicine and Public Health: The Exploration Series."

The official launch was followed by a comment from editorial board member, Prof. Olumide A.T. Ogundahunsi, who described the Serial as an innovative tool with the potential of fostering strong interdisciplinary collaborations within the university.

A brief run-through of the authors' information was delivered by the Managing Editor, Dr. Nanfizat A. Alamukii. For further inquiries and requests for both the authors' information and the maiden edition of the serial, an email can be sent to mbmg@unimed.edu.ng.

UNIMED Researcher wins N35 Million Grant

... selected again for Africare Research Excellence Fund

The University of Medical Sciences, Ondo City, Ondo State, the first specialized University of Medical Sciences in Nigeria, continues to break new

grounds nationally and internationally under the able leadership of Professor Adesegun Fatusi as one of its researchers, Dr Modupe Adesiyani, recently won TETFUND National Research fund of N35 million for her research work "Application of Immobilised Enzymes for Microbial Degradation of Plastic Effluents from Selected Industries in Lagos".

Dr Adesiyani, a multiple research award winner, just added another feather to her cap by being selected for Africare Research Excellence Fund (AREF). The AREF Towards Leadership programme aims to empower talented, emerging scientists in Africa to compete successfully for UKRI MRC and other major funding opportunities in global health research.

The programme will run between Oct 2024 to Oct 2025, consisting of two residential workshops (opening and closing) and one virtual workshop.

This is a commendable feat for a young university like UNIMED and it shows how inspired leadership and mentorship of the University Management is rubbing off on the outputs of the workers of the institution.

RECENT PROMOTIONS AND CONFIRMATION OF APPOINTMENT

The council at its 22nd Statutory meeting and the 16th meeting of Appointments, Promotions, and Disciplinary Committee (APTS) received, considered and approved the promotions of the following Academic Staff.

1. Dr. Ganiyu Oyebola Adeosun from Senior Lecturer to Reader in the Department of Medical Laboratory Science, Faculty of Allie Health Science. Effective 1st Oct, 2022.
2. Dr. Yinka Doris Oluwafemi from Senior Lecturer to Reader in the Department of Microbiology, Faculty of Science. Effective 1st Oct, 2023.
3. Dr. Evelyn Salewa Osho from the position of Senior Lecturer to Reader in the Department of Radiology, Faculty of Clinical Sciences, 1st Oct, 2023.

Confirmation of Appointment

1. Mr. Adesina Innocent Arogunjo, Security Unit.

POST UTME/DIRECT ENTRY ADMISSION SCREENING FOR THE 2024/2025 ACADEMIC SESSION

The University of Medical Sciences (UNIMED), Ondo State is the First (1st) Specialized Medical and Health Sciences institution in West Africa. Since its establishment in 2014, the University has carved a niche by being one of the few public universities with a stable & uninterrupted academic calendar with exceptional educational service delivery quality.

According to NUC Ranking (2021), the University was ranked first (1st) among Ondo State-Owned Universities, 2nd best of all Public & Private Universities in Ondo State, 4th among all State-Owned Universities in Nigeria, and 19th Best University in Nigeria.

Accordingly, the University hereby invites all suitably qualified candidates for undergraduate admission in the 2024/2025 Academic Session into the following Faculties / Disciplines:

- **Faculty of Clinical Sciences**

1. Medicine and Surgery

- **Faculty of Dental Sciences**

1. Dentistry
2. Dental Therapy
3. Dental Technology

- **Faculty of Pharmacy**

1. Pharmacy***

- **Faculty of Medical Rehabilitation**

1. Doctor of Physiotherapy
2. Prosthetics and Orthotics
3. Audiology
4. Occupational Therapy
5. Speech Language Therapy***

- **Faculty of Nursing Science**

1. Nursing Science

- **Faculty of Allied Health Sciences**

1. Medical Laboratory Science
2. Radiography and Radiation Science
3. Human Nutrition and Dietetics
4. Health Information Management
5. Complementary and Alternative Medicine
6. Health Care Administration and Hospital Management

Faculty of Basic Clinical Sciences

1. Community Health Science

2. Environmental Health Science

- **Please note that the courses with Asterisks (***) are newly introduced programmes.**

ELIGIBILITY

1. Candidates who chose “Ondo State University of Medical Sciences” as their most preferred (1st) Choice Institution in the 2024 UTME and scored **150 and above** are eligible to apply for the Post UTME Screening.

2. **Also candidates who do not choose the “Ondo State University of Medical Sciences” and are willing to change to the institution as their most preferred (1st) choice are also advised to apply for the Post Utme Screening.**

3. All applicants are required to have a minimum of five (5) credits in either WAEC, NECO and GCE O' Level, which must include English Language, Mathematics and any other three (3) relevant subjects as may be specified by each Faculty. The five (5) O'Level credits should be obtained in not more than **two (2) sittings**.

- For Medicine and Surgery, Dentistry and Doctor of Physiotherapy programmes, the five (5) O'Level credits must include Mathematics, English, Biology, Chemistry & Physics which must be obtained at only one (1) sitting.

4. Direct Entry candidates who have already applied through JAMB and also picked the University as their most preferred (1st) Choice Institution in the 2024 Direct Entry Registration are also eligible to apply for the Post UTME Screening.

- They are required to possess a minimum of ten (10) points aggregate in relevant 'A' level certificates or B.Sc. (Hons) Degree with a minimum of Second Class (Lower Division)/Diploma in the Basic Medical or Basic Science subjects with a minimum of Lower Credit;
- for Medicine and Surgery and Dentistry programmes, a minimum of thirteen (13) points aggregate in relevant 'A' level certificates or Second Class Upper, B.Sc. (Hons) Degree in any Basic Medical Science courses;
- for the Nursing Science programme, candidates with a first (1st) degree in health-related and basic science courses with a minimum of Second Class Lower Honours are also eligible to apply.

5. JAMB UTME Subject Combination: All courses in the various Faculties require English Language, Biology, Chemistry and Physics. Candidates applying for admission in Mathematics, Physics, Statistics, or Computer Science are required to present a UTME subject combination of English Language, Mathematics, Physics, and Chemistry.

HOW TO APPLY FOR THE 2024 POST UTME SCREENING:

Eligible candidates should log on to the University website www.unimed.edu.ng and take the following steps:

- Click on **Admission**;
- Click on **Post-UTME** to access the Post-UTME Portal;
- Click on **PAYMENT** to make payment via the online payment system using VISA or MASTER Card. **Note that:** VERVE Card is not allowed;
- After payment, Print the Payment Receipt
- On the **Post-UTME Portal**, Click on **Application Portal** to Login with your **UTME Registration Number** and **Payment Transaction ID** as Password to complete the Post-UTME registration.

For more details on payment and application, check the University website (www.unimed.edu.ng) *PAYMENT IS ONLY VIA THE UNIMED PAYMENT PLATFORM ON THE UNIVERSITY WEBSITE, ON NO ACCOUNT SHOULD CANDIDATES MAKE PAYMENT TO ANY UNAUTHORISED ACCOUNT. PLEASE SEEK CLARIFICATION IN CASE OF DOUBT.*

DISCLAIMER

Kindly note that the University of Medical Sciences does **NOT** have admission agents. For the avoidance of doubt, visit the University website at www.unimed.edu.ng for valid and authentic information about admission into various programmes offered by UNIMED; and for physical clarification on admission, please visit the Admissions Unit, Academic Affairs Office, UNIMED Laje Road Campus, within Medical Village, Ondo City, Ondo State, Nigeria.

Also, note that valid payments for the purchase of forms can ONLY be done as described above and NOT into any individual's account. Anyone who deals with an unauthorized individual and/or makes payment(s) into any individual's account does so at her/his own risk!

2024 POST UTME SCREENING DATE AND VENUE OF THE EXAMINATION:

The 2024 Post UTME Screening Exercise will be held between **Tuesday 3rd, Wednesday 4th and Thursday 5th September, 2024.**

Venue of Examination and other modalities for the 2024 Post UTME Screening Exercise will be communicated to validly registered candidates via their individual portal on the University Website before the above stated dates.

ALSO NOTE THAT:

1. All candidates will be required to bring along the following items to the screening venue:
a. JAMB 2024 UTME Notification of Results Slip/Registration Slip for Direct-Entry Candidates;
b. Printed copy of the completed 2024 Post UTME Screening slip.

2. Direct Entry Candidates are to request for their Official Academic Transcripts **which must be forwarded directly** from their previous institution to the Registrar, University of Medical Sciences, Ondo, either by email to transcript@unimed.edu.ng or through courier service to the following address: **Office of the Registrar, University of Medical Sciences, Laje road Campus, within Medical Village, Ondo City, Ondo State, Nigeria.**

(Direct Entry applicants will not be considered for admission without evidence of submission of submission of official academic transcripts to the above address)

3. For more information or clarifications, candidates are advised to visit the University website at www.unimed.edu.ng, send an e-mail to admissions@unimed.edu.ng, or call the following phone numbers: **+234 705 121 2222** or **+234 813 551 3654.**

4. Any candidate who fails to present himself/herself for the 2024 Post UTME Screening Exercise will **NOT** be considered for admission.

The poster features the large vertical text 'UNIMED' on the left. On the right, it includes the University of Medical Sciences logo and name, along with the text 'Nigeria's 1st Medical & Health Sciences University' and the website 'www.unimed.edu.ng'. A central graphic shows a question mark icon with the text 'Did you know that there are over 30 COURSES offered at UNIMED'. Below this, it lists course costs: '18 Courses cost less than ₦200,000 (The NextGen Scholarship)', '13 Courses cost less than ₦450,000', and '3 Courses cost less than ₦300,000'. A section titled 'What you stand to gain' lists: 'Uninterrupted academic calendar', 'Top-rated lecturers & facilitators', and 'Ultra-modern learning facilities & technologies'.
